BANNER YEAR FOR ROADS IN WEST VIRGINIA

Is the One Just Ended but the New One Promises to Be Even Better.

(SPECIAL TO THE TELEGRAM)
MORGANTOWN, Jan. 1.—While the year 1915 proved a banner one in the way of constructing permanent highways in the state of West Virginia, the incoming year promises to bring greater things. The good roads movement in the Little Mountain state has not confined itself to any one particular county or section as a careful survey of the work under way and that contemplated reveals the fact that the problem of pulling West Virginia out of the mud is coming in for its share of consideration throughout the entire state. The good roads movement is not one that commands the attention of certain individuals or association of individuals but on the contrary it is one that interests every man, woman and child within the confines of the state. The year 1916 gives promise of being an exceptionally busy one in the southern part of the state and providing the county bond issues are voted upon favorably, as it is thought they will be, just \$4,150,000 will be expended in constructing good roads in Cabell, Wyoming, Mercer, Mingo and Wayne counties. This means that there will be a continuous permanent brick or

CONGRESS COMMITTEE HAS PLAN TO EXTEND FARMERS' CREDIT; TO ASK LEGISLATION

Rural credits committee in session. Left to right around table: Senator Hollis, Representative Lever, Moss, Glass and Hawley, Senator Owen, and W. W. Flanagan, secretary of the committee.

A system of rural credits, designed to afford farmers financial loans on easy terms, has been worked out by the joint committee appointed by the last congress and will be reported to both houses when they reassemble. The tentative bill provides for a comprehensive farm mortgage credits system under the control and supervision of a land bank board of five members to be appointed by the president with the approval of the senate.

concrete highway from the Ohio to the Virginia line.

Cabell county has already voted bonds to the extent of \$900,000; Mercer county has voted \$850,000 while Wyoming county has provided for \$550,000. Wayne county has petitioned for a \$1,000,000 bond issue while the latest county to get into the movement is Mingo county. In this county through the activity of H. S. White, brother of Dr. I. C. White, state geologist, who is chairman of the Good Roads Commission, a petition will be presented to the county court in that county on January 3, asking leave to vote on a \$850,000 bond issue. Blake Taylor, chief engineer of road construction in Mingo county, will represent the state road bureau and unless there is a decided change in opinion the proposition will go through at the election by a good sized majority.

Preston county is joining the progressive counties and the main topic for discussion in the grocery stores in the rural districts and around the street corners in the municipalities is good roads. Petitions for bond issues in Union and Lyon districts in that county have been prepared and will be presented to the county court early in January. The petition in Union district calls for \$100,000 while that in Lyon calls for \$170,000. Lincoln district, in Tyler county, will shortly present a petition for \$60,000.

FIRST WEEK IN MARCH TO BE BABY WEEK

And Many Facts about American Babies Will Be Brought Out Then.

WASHINGTON, Jan. 1.—1916 is baby year. The facts about American babies, the needs of American babies, and America's responsibility to her babies will this year be known as never before, because the first week in March will be baby week throughout the country.

More than 400 communities representing every state in the union are already laying their plans for baby week, according to the children's bureau of the United States department of labor, in order that during those seven days the needs of the babies may be so presented that all the parents in those communities will learn a little better how to care for their babies, and all the citizens will realize that they have a special obligation to safeguard the conditions surrounding babies. And it is contentedly believed by those who are interested in this nation-wide baby week that the remainder of the year will be marked by a strengthening of all community activities for saving babies' lives and giving them a better chance to grow to a healthy maturity.

The baby week idea originated in Chicago not quite two years ago. Then New York had a baby week, and Pittsburgh, and other cities. Such practical benefit has in each case resulted that the general federation of women's club has undertaken to promote this nation-wide observance. State health officials and national organizations interested in public health and child welfare have taken up the plan and in various ways are giving it not only their sanction but their active co-operation. The extension divisions of the state universities have promised special assistance in interesting in and helping baby week in rural communities.

The federal children's bureau believes that baby week will give more parents a chance to learn the accepted principles of infant care, and will

awaken every American to this responsibility for the deaths of the three hundred thousand babies who, according to the census estimates, die every year before they are twelve months old. Therefore the children's bureau has prepared a special bulletin of practical suggestions for baby week campaigns, adapted to the varying needs of communities of different types. Copies of this bulletin may be had free of charge from the children's bureau at Washington.
